CONSTRUCTION NOTICE

Nicor Gas Service Installation Alley Between Burlington and Calendar Avenues

September 9, 2016

Dear Residents, Property Owners and Business Owners:

As you know, Nicor Gas is in the process of replacing their infrastructure throughout the Village. This work includes the replacement of the gas main, gas services to each property, and gas meters. Nicor has completed the installation of the gas mains within the Central Business District and has been moving into the next phase of the work which is the replacement of individual gas services to each property.

Nicor has notified the Village that starting next week they will be replacing the gas services for properties that are served by the gas main located in the alley between Burlington and Calendar Avenues from La Grange Road to the Village's parking lot. This will impact properties on the north side of Calendar Avenue and on the south side of Burlington Avenue that abut the alley. In order to install these gas services a temporary closure of the alley between Harris Avenue and Calendar Avenue will be required. This work is scheduled to occur Monday through Friday between the hours of 7:00 am and 5:00 pm starting on Monday, September 12, 2016. Nicor indicates that the work is expected to take 5-7 business days to complete.

To accommodate this work, the alley will be closed during this time period from La Grange Road to the Village's parking lot. Access from the west will be allowed when not blocked by construction equipment. The Village will also coordinate with the garbage company to ensure garbage pickup continues during the work. Each day at 5:00pm the alley will be reopened to traffic. Please be sure to let any delivery companies know of this temporary closure.

Thank you in advance for your patience and cooperation. We will work with Nicor Gas to minimize the inconveniences associated with this work. Please contact the Department of Public Works at (708) 579-2328 with any questions, comments or concerns.

Sincerely,
VILLAGE OF LA GRANGE

Ryan Gillingham, P.E.
Director of Public Works
