

Village of La Grange

CONSTRUCTION NOTICE

PROJECT: Nicor Sidewalk Repairs
ISSUE DATE: September 9, 2016
LOCATION: La Grange Road from Cossitt Avenue to
Burlington Avenue

As you know, Nicor Gas is in the process of replacing their infrastructure throughout the Village. This work includes the replacement of the gas main, gas services to each property, and gas meters. Nicor has completed the installation of the gas mains within the Central Business District and has completed the installation of gas services on La Grange Road. Nicor is now planning to start the restoration of the streets and sidewalks on La Grange Road, which is the last phase of the work for this section.

The sidewalk repairs are planned to occur on La Grange Road from Cossitt Avenue to Burlington Avenue. The work will involve removing temporary material and replacement of the sidewalk and pavement to match existing conditions. Access to businesses will remain open during the work.

Weather permitting, this work is planned to start on Monday, September 12, 2016 and is expected to take approximately one week to complete. Please be advised that lane closures on Harris Avenue will be required to accommodate work in the pedestrian crosswalk. Specifically, traffic on Harris Avenue east of La Grange Road, will be restricted to westbound travel only while the sidewalk work is completed.

Thank you for your patience while Nicor completes the upgrades to their gas delivery infrastructure. If you have any questions, or if there are any special circumstances that require coordination, please contact the Department of Public Works at (708) 579-2328.
