

Village of La Grange

September 12, 2018

Ms. Kathleen Hoffman
VP, Global Environmental Health & Safety
Sterigenics International, Inc.
2015 Spring Road, Suite 650
Oakbrook, IL 60523
khoffman@sterigenics.com

Dear Ms. Hoffman:

I am writing to express concerns on behalf of the residents of La Grange regarding recent reports of carcinogenic emissions from the Sterigenics International facility in Willowbrook. According to information being widely circulated, the use of ethylene oxide poses increased public health risks to area residents.

As a result of these concerns, I join many other government officials in urging Sterigenics to cease operations, provide full transparency, and take all steps necessary to protect the public by working closely with state and federal agencies to implement appropriate safeguards.

Sincerely,
VILLAGE OF LA GRANGE

Tom Livingston
Village President

cc: La Grange Clerk and Board of Trustees
State Representative Jim Durkin
State Senator John Curran
Alec Messina, Director, IEPA
Nirav D. Shah, Director, IDPH
