Subject: Construction Notice
2021 Street Improvement Program

Dear Resident:

The Village is pleased to announce that the 2021 Street Improvement Program is planned to start the week of July 19, 2021 and is scheduled to be completed at the end of September. The scope of work for the project consists of removing and replacing the existing asphalt roadway. The project will also include intermittent sidewalk and curb and gutter repair, surface drainage corrections, and parkway restoration. The contract for this project was awarded to J.A. Johnson Paving Company.

The following street segments are included in this program:

<u>Street</u>	<u>From</u>	<u>To</u>
Elm Avenue	Gilbert Avenue	Brainard Avenue
Maple Avenue	Gilbert Avenue	Brainard Avenue
Goodman Avenue	Gilbert Avenue	Brainard Avenue

The construction sequence for the project will generally be as follows:

- Repair sewers and other underground infrastructure.
- Intermittent replacement of curb and gutter, sidewalk, and driveways.
- Remove existing asphalt surfaces, and adjust drainage structures.
- Install new asphalt roadway pavement.
- Restore parkways.

Over 

During the project, the goal is to provide continuous access to your property while the work is completed. However, there will be certain work activities that may temporarily limit access to your property such as curb, sidewalk, and driveway installation directly in front of your property. Signs and notices will be provided describing the work activity and expected restrictions closer to when the activity is expected to occur. Residents will be notified if driveway access will not be allowed and where parking will be available during that time.

On-street parking on the above roadway segments will be restricted during the project; however residents can park on adjacent side streets during the project. If access to your driveway is blocked, overnight parking will be allowed on your street while the work is completed. The Police Department is aware of this accommodation and will not be ticketing vehicles for overnight parking in this area. All vehicles parked on-street will need to be parked in a legal space, which includes not blocking fire hydrants, intersections or driveways.

Generally, the contractor will be working between the hours of 7 am to 5 pm, Monday through Friday. Please note the above schedules are weather dependent and may need to be adjusted based on unforeseen circumstances.

Lastly, if you have an underground sprinkler system within 5 feet of the sidewalk on any of the streets listed above, please contact the project representative at the number listed below.

If you have any questions regarding project activities, please contact the project representative, Mr. Josh Harris at (630) 391-2446. Alternatively, you can also call the Department of Public Works at (708) 579-2328 with any questions, comments or concerns.

Sincerely,
VILLAGE OF LA GRANGE
