

ComEd.com has a new outage map!

ComEd is excited to introduce its new outage map. The ComEd.com outage map will provide customers with an improved user experience and more information during storms and emergencies. The enhanced outage map was implemented on today, Wednesday, May 2, 2012.

Key highlights of the ComEd.com Outage Map include:

- Outage information is provided by hovering over the triangle icons.
- Multiple outages are indicated with a number. To see more detailed information about a specific outage, zoom in until the individual triangles are visible.
- Alternative views of the outage map can be selected. You can view outages by County, ZIP, or Town-Ward.

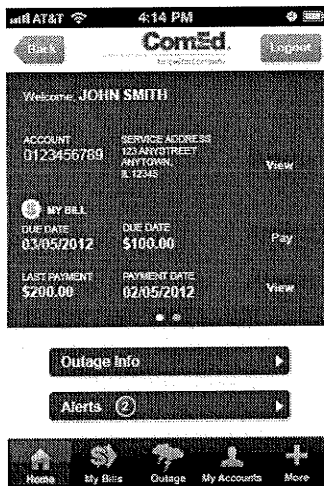

- An overview of outages by County, City/Town/Village, or Chicago Ward is available in a table format by selecting the Summary tab
- An easy way to zoom in to an area on the outage map is to enter an address in the 'Go To' box in the bottom left corner of the map.
- Navigation is included on the map for customers to Report an Outage or access the My Account section of ComEd.com

A special thank you is extended to the project team for all the hard work!

Take ComEd Where Ever You Go

Report an outage, check account information via the new mobile app!

ComEd is excited to introduce a new mobile application. Now available for download on the Apple iPhone® and Android™ smartphones, customers can report their outage and check the restoration status right from their smartphone. Customers can also receive notifications as their outage status is updated.

In addition to the outage reporting functionality, customers can view their account summary and history, manage Budget Billing and automatic payments, report a meter reading and find a payment agent based on their current location or a specific location. Customers can also be able to make a one-time payment

through the app.

The app makes it easy to manage more than one account at a time; customers can access up to five residential accounts through the mobile app.

To download the app, customers should search “ComEd” in their application store on their respective smartphones and select “Install”. The application is free.

A special thank you is extended to the project team for all the hard work!
